PROFESSIONAL SUMMARY

Senior Flutter and Android developer with 9+ years of experience and 10+ apps published on Google Play and the App Store for Saudi and international clients, including Najm (1M+ downloads) and Manafith (100K+ downloads). Currently delivering the Najm insurance suite in Flutter (Dart) and native Android (Kotlin, Java). Strong in MVVM architecture, REST APIs, Firebase, payments, camera/GPS, offline sync, WebRTC/VoIP, bilingual Arabic/English (RTL) UI, CI/CD, code review, and end-to-end release management.

SKILLS

Languages: Dart, Kotlin, Java, PHP

Flutter: Flutter, Dart, Bloc/Cubit, Provider, Dio, Hive, SharedPreferences, Clean Architecture

Android: Android SDK, Jetpack, Jetpack Compose, Kotlin Coroutines/Flow, Hilt/Dagger, MVVM, Material Design

APIs / Data: REST APIs, Retrofit, Room, SQLite, Firebase (FCM, Crashlytics, Analytics), payment integration

Platform: Camera, GPS, WebRTC, VoIP, offline-first sync, PDF generation, Localization (Arabic/English, RTL)

Delivery: CI/CD, GitHub Actions, Git, Agile, code reviews, Google Play Console, App Store Connect, TestFlight, Xcode

Design: Figma, Adobe XD, UI/UX implementation

EXPERIENCE

Flutter / Android Developer · Clarion Technologies Pvt Ltd

Oct 2023 — Present

Remote · Android, Kotlin, Java, Flutter, Dart, REST APIs, Firebase

- Develop and maintain native Android (Kotlin/Java) for 4 apps in the Najm suite: Najm (1M+ downloads on Google Play), Manafith (100K+), Damage Assessment, and Surveyor.
- Build Flutter (Dart) features shared across 3 apps (Najm, Manafith, Damage Assessment) for the past 1.5 years, delivering to both Android and iOS from one codebase.
- Delivered accident reporting, surveyor workflows, payment flows, digital policy and damage documents, and camera/GPS capture in bilingual Arabic/English (RTL) UI.
- Reviewed pull requests, fixed production bugs, and released versions to Google Play and the App Store.

Android Developer · Mobile Tornado

Apr 2021 — Sep 2023

Vadodara · Kotlin, Java, VoIP, WebRTC, REST APIs, MVVM

- Developed Instant Talk PTT (10K+ downloads on Google Play) on Android: push-to-talk, messaging, location tracking, workforce management, and lone-worker alerts.
- Owned day-to-day Android work — UI, features, bug fixes, code reviews — and released builds on Google Play for international clients.

Android Developer · Promact Infotech Pvt Ltd

Apr 2019 — Jan 2021

Vadodara · Kotlin, Java, CI/CD, REST APIs, MVVM

- Built Android apps in Kotlin and Java with CI/CD pipelines so releases stayed predictable.
- Reviewed pull requests, fixed production bugs, and published updates on Google Play.

Junior Android Developer · SPECTA

Jul 2017 — Dec 2018

Vadodara · Java, Android SDK, UI/UX, PHP, REST APIs

- Implemented Android screens and features, wrote PHP APIs for the apps, and published to Play Store.

KEY PROJECTS

Najm · Flutter / Android

Official app for Najm for Insurance Services (1M+ downloads on Google Play). Drivers in Saudi Arabia report accidents, upload scene photos, track the investigator, and check report status in Arabic and English.

[Play Store](#) · [App Store](#)

Manafith · Flutter / Android

App (100K+ downloads on Google Play) for buying insurance for foreign vehicles entering Saudi Arabia. Covers payments, digital policy documents, and multi-language UI so drivers spend less time at the border.

[Play Store](#) · [App Store](#)

Damage Assessment · Flutter / Android

Internal Najm tool for assessors to inspect vehicle damage from reported accidents — photo annotation, evaluation, PDF reports, and handoff to insurance companies.

Najm Surveyor · Android

Internal Najm Android app used by surveyors in the field for accident-related surveys and on-site data capture supporting the Najm insurance workflow.

Instant Talk PTT · Android

Mobile Tornado push-to-talk client (10K+ downloads on Google Play) for teams over cellular and Wi-Fi, with messaging, location tracking, workforce modules, and lone-worker alerts.

[Play Store](#)

VLX (Visualogyx) · Android

Field inspection app (5K+ downloads on Google Play) for claims, QA, and work orders. Supports photo evidence, GPS, custom templates, offline capture with later sync, and PDF reports.

[Play Store](#)

EDUCATION

B.E. Computer Engineering

2014 — 2017

Gujarat Technological University · CGPA 7.2

Diploma in Computer Engineering

2010 — 2014

The Maharaja Sayajirao University

ADDITIONAL APPS & OPEN SOURCE

- **Memories** — customize printable products (frames, mugs, photo books, canvases, calendars)
- **Scandoc** — document scanner with edit/bind flows and Google Drive sync
- **Chatapp** — realtime chat with media, stickers, location, and WebRTC calls
- **Seylles** — crypto wallet for SEL tokens
- [UPIPayments](#) — Kotlin helper for UPI payments
- [ExceptionHandler](#) — custom crash screen and reporting
- [FaceView](#) — face-aware zoom view using Google Vision
- [StoryView](#) — stories UI similar to WhatsApp / Instagram
